Andrii Aheiev

Principal Systems / Platform Engineer

Design, secure and automate cloud infrastructure and processes

DevOps / Platform Engineer with 15+ years of hands-on experience in managing private and public clouds, CI/CD, automation and security. 5 years in fintech.

Google Cloud, Azure, AWS, Kubernetes, GKS, AKS, Terraform, Ansible, Docker, HELM, Linux, GitOps, GitHub Actions, ArgoCD, Kubernetes Operators, Python, Ruby, Kafka, APIm, Maven, Databases, API Platform, Monitoring, Observability, Incident Management, Security Monitoring, Cloud Migration, ML Workflows, SEIM

Experience

July. 2023 - now	BackBase Amsterdam, The Netherlands
Azure AKS APIm GitOps API Github Actions Kubernetes AKS Terraform HELM ArgoCD Istio Knative Camel-K Integration Platform Azure APIm Azure Service mTLS PKI Service Operator Python Change management Incident management	Principal Systems / Platform Engineer Design, build and automate infrastructure and processes for multi-tenant API integration platform. Prepare infrastructure for SOC2 certification.Hire and lead the team of 5 engineers. • Designed and implemented azure multi-tenant multi-environment infrastructure as code with terraform and GitHub workflows. • Implemented GitOps for Kubernetes workload management using ArgoCD • Implemented Development environment for low code platform based on Knative and Camel-K • Implemented observability, security monitoring and incident management.
July. 2021 - June. 2023	BUX Amsterdam, The Netherlands
Google Cloud FlixCD Kubernetes GKE Terraform HELM Github Actions Docker CI/CD Kafka RabbitMQ Istio Elasticsearch	Senior DevOps Engineer Managing Google Cloud Infrastructure and CI/CD processes. • Migrated infrastructure as code from shell scripts to terraform managed by GitHub Actions • Unified and migrated CI/CD from Jenkins, Teamcity to GitHub Actions.

Jan 2021 - June 2021	ABN AMRO via Infosys. Amsterdam, The Netherlands
Azure Ansible Murex Oracle Azure DevOps PowerShell NetApp Volumes	Senior IT Engineer Created Ansible / Azure DevOps workflows Configuration as Code and migrated Murex application stack from on premise DC to Azure Cloud
Feb 2020 - Dec. 2020	ING (XLinQ) via Levy Professionals Amsterdam, The Netherlands
Azure AKS Docker CI/CD Kubernetes Container Security Automation SEM IaC PowerShell Pipelines Azure DevOps Aqua Security Monitoring Application Security	Site Reliability Engineer. Infrastructure development, CI/CD, Application security, processes automation ● Azure Cloud Infrastructure design and automation ● Microservices design and full lifecycle implementation (build, test, Kubernetes deploy) ● Azure DevOps CI/CD ● Implemented infrastructure/application monitoring design with Azure Monitoring and Log Analytics ● Security monitoring. Implementation of CISO and SEM rules with Azure Sentinel
June 2018 - Jan 2020	PitneyBowes
CI/CD Docker Kubernetes Jenkins Kafka Azure AKS AWS PowerShell Teamcity Container Security Automation Airflow H2O IaC	Senior DevOps Engineer 1. Dockerized complex .Net event-processing application and created set of microservices 2. Implemented events synchronization from Kafka to AWS Kinesis 3. Migrated infrastructure from Azure to AWS (development and CI/CD) 4. ML prediction app pipelines and model deploy
May 2010 - May 2018	Various projects Contractor / Freelancer
VMware, Private Cloud AWS Ansible AWX Docker Oracle MySQL MariaDB Automation WEB	Contractor / freelancer DevOps Designed, implemented and supported private and public cloud infrastructure for different applications.

Education

1998 - 2003	Odesa State Polytechnic University	Computer and Network Systems
2016	MongoDB University	M102. MongoDB for DBA
